

CREATION ECO CHURCH CLIMATE

ACTION AND HOPE

The 5th Mark of Mission for the Church is
To strive to safeguard the integrity of creation and sustain and renew the life of the earth.

All things are possible if you believe.

Caring for God's Earth

CREATION ECO CHURCH CLIMATE

WITNESS

As Christians we must show how we care for God's creation. The covid virus has highlighted the terrible problems we have created in the eco systems of the earth and the suffering of our brothers and sisters all over the world.

During Creation Time we focus on what we can do to speak up for others, examine our resources and highlight the loss of habitat and wildlife, and plant and food growth for the indigenous people of the worlds **RAINFORESTS**

What can we pledge?

How can we change what we use or how we live?

CREATION ECO CHURCH CLIMATE

WORSHIP

What does the bible say about creation?

Tremble, earth, at the presence of the Lord.

Follow the readings and explore.

What can you find in the bible and share?

What is your prayer for the **RAINFOREST?**

Father, we thank you for creating this wonderful world and for giving us the task of caring for it.

Have mercy on us and our planet.

Fill us daily with your grace, that we may always remember that we are here as your stewards, who will one day be asked for our account. Amen.

CREATION ECO CHURCH CLIMATE

CREATE

We can appreciate our surroundings and especially our own trees and wildlife and by doing so express and focus on trees in our sacred world and the **RAINFOREST.**

Draw/paint/collage/ or photograph trees.

Write a prayer or a poem.

Make a prayer tree.

Create a short video clip about water.

This can help us reflect on the beauty and importance of the earth and its resources.
